## WELCOME

### About the company

[Drop us a line →](#)

Random yet simple, this text generator is perfect for those of us that don't need or require a ton of features. It has several other languages you can use to generate your text, however, that could possibly benefit those of us that work with international clients.

This text generator strays away from the usage of faux languages. Here, the developer decided to use passages from various famous stories to create randomly generated text.
